

Introduction to the Unified Modeling Language (UML)

Martin Gogolla

University of Bremen, Computer Science Department
Database Systems Group, <http://www.db.informatik.uni-bremen.de>

Table of Contents

1. Background

2. UML by Example

2.1 Nine Diagram Forms

2.2 TROLL light

2.3 UML Diagrams for TROLL light Example

3. Object Constraint Language

3.1 Why Object Constraint Language (OCL)?

3.2 OCL by Example

3.3 General Remarks on OCL

Table of Contents (cont'd)

4. Class Diagrams

4.1 Examples for Static Structure Diagrams

4.2 Advanced Concepts in Class Diagrams

4.3 Basic Concepts in Class Diagrams

5. Statechart Diagrams

5.1 Examples for Statecharts

5.2 Graph Transformation for Statecharts

Table of Contents (cont'd)

6. Car Rental Case Study in UML

6.1 Getting Started

6.2 Use Cases

6.3 Static Structure Diagrams

6.4 Statechart Diagrams

6.5 Collaboration Diagrams

6.6 Closing

Table of Contents (cont'd)

7. Further UML Diagrams

7.1 Use Case Diagrams

7.2 Sequence Diagrams

7.3 Collaboration Diagrams

7.4 Activity Diagrams

Table of Contents (cont'd)

8. UML Metamodel

8.1 Getting Started

8.2 Class Diagrams for UML Core

8.3 Description for UML Core

8.4 Well-formedness Rules for UML Core

8.5 "Detailed Semantics" for UML Core

8.6 Other Class Diagrams for UML Metamodel
